# WHY WE HAVE A QUALITY POLICY?

At AviaPro, our commitment to quality is the cornerstone of our operations. We are dedicated to delivering innovative, safe, and sustainable aviation solutions that empower businesses worldwide. Aligned with our purpose and core values, we pursue excellence in every aspect of our services and products, with a strong focus on continuous improvement and operational efficiency.

To support this commitment, we have established Key Performance Indicators (KPIs) across our operations, serving as essential drivers for measuring success and guiding continuous enhancement.

# OUR PRINCIPLES I

## Right First Time / Commitment to Excellence

We believe in doing things right the first time, every time—ensuring reliable, high-quality outcomes that reflect our pursuit of excellence.

## Meeting Customer Expectations

We strive to understand and exceed our clients' needs by delivering dependable, timely, and tailored solutions that add lasting value.

## Innovation and Safety

We take a proactive approach to innovation while upholding safety as a non-negotiable priority. Our solutions are designed to meet and exceed industry standards, supporting safe and forward-thinking aviation operations.

# OUR PRINCIPLES II

## Sustainability

We are committed to environmentally responsible practices that contribute to the long-term success of our clients and the sustainability of the aviation industry.

## Continuous Improvement

We cultivate a culture of learning and progress, using data, feedback, and industry insights to enhance our processes, services, and performance continually.

## Global Collaboration

We leverage the strengths of our international team and foster close partnerships with clients to turn challenges into opportunities and deliver operational excellence.

# OUR PRINCIPLES III

## Compliance and Accountability

We uphold full compliance with applicable legal, regulatory, and customer-specific requirements. Every team member shares responsibility for quality and plays an active role in maintaining high standards.

Through these principles, AviaPro not only aligns with the requirements of ISO 9001, but aspires to set the benchmark for quality in the aviation industry—building enduring partnerships and shaping a safer, smarter, and more sustainable future for aviation.

This policy is communicated across the organization, understood and embraced by all employees, and reviewed regularly to ensure its continued relevance and effectiveness.
